PROFILE

I am a 24yo Full stack web developer with ability to learn and collaborate in rapidly changing environments and compositions. Worked through 1000+ hours of John Bryce boot camp & self study, learning JavaScript, React, Angular, Vue, Node.js, Express, MySQL, SQL, MongoDB. Eager to tackle web development/design challenges to achieve lasting impacts on user experience.

EDUCATION

John Bryce

Tel Aviv

Aug 2021 — May 2022

A course covering all modern Full Stack web technologies like: JavaScript, React, Angular, Node.js, SQL, MySQL, Express, MongoDB. During the course i have build 4 projects, thus gaining real experience working with those subjects.

MILITARY SERVICE

Mar 2017 — Nov 2019

I served 3 years in an emergency base of paratroopers brigade as a car mechanic. During my service I was appointed as a department manager and won a certificate of excellence.

PROJECTS
